

Files.fm File Upload Form instruction for Blogger

In your *Blogger* page's admin:

1. Open the section *Layout* (in the left panel).
2. Choose a place where you want to add the gadget and click *Add a Gadget*.
3. Click *Add your own* in the opened *Gadget adding form* (in the left panel).

Open <https://files.fm/upload-form?blogger#configuration>

(create or log in to your Files.fm account if not already logged in):

4. Copy *Files.fm Gadget's URL* and paste it into your *Blogger Gadget adding form*.
5. Click *Add by URL*.
6. Copy *Files.fm Username* and *User key*, paste it into your *Blogger Gadget adding form*.
7. Click *Save*.

8. Configure your *Files.fm File Upload Form* (change appearance etc.) here:

<https://files.fm/upload-form?blogger#configuration>

9. All done – receive files from your *Blogger* page's visitors!
